3. Payment for item (2) will be made as follows:—

For 2 (a) & (b). For the first 65 units of work completed in (a) or (b), 30 per cent of the agreed through rate will be paid. For the 2nd 65 units, 50 per cent of the tendered rate, for the 3rd 65 units, 65 per cent and for the remaining quantity, the full agreed through rate will be paid.

After gullet portion of the cutting is completed satisfactorily, balance amount due at the agreed through rate will be paid, provided the other conditions in the agreement have been fulfilled as required.

Excavation for slopes to be done only after the gullet portion of the cutting has gone down to the required depth (formation level) and side drains excavated.

4. The slopes to be given at different portions of cutting will be fixed by the department and the contractor will have no claim whatsoever on account of any decrease in the quantity of work to be done on account of steeper slopes being permitted.

*Note B.*

1. The ballast should be of quartz, burnt stone or any other hard quality approved before collection.
2. The ballast must be screened to be free from dust and chips.
3. It must pass through a 2" ring in all direction.
4. The stacks must be 50' x 10' x 2' or any multiples thereof and one inch per foot should be added extra for shrinkage.
5. The stacks should be built on levelled ground in places shown within the Railway boundary.

*Note C.*

Specifications for works will be according to Marryat's Book Volume I.
